*Eddie Bauer*  
100 YEARS

Our founder, Eddie Bauer, was an outdoor guide. He dedicated his life to making gear that got people outside - where it's wild, beautiful and adventures are meant to be shared. A century later, we invite you to connect with your surroundings, to protect what you see, and to find yourself outside.

Our Limited Edition CENTENNIAL COLLECTION expands on the legacy of adventure-driven innovation that has defined our brand since the beginning. The following collection provides fresh approaches to achieving our enduring goal: superior performance in the elements.

**WOMEN'S**

**IT'S NO WONDER** Eddie called his wife Christine "my wilderness companion." She had more stamina in the backcountry than he did. She was an eight-time Washington State Trapshooting Champion. And she was an artist.

The Centennial Collection Down Parka is a tribute to Christine's advocacy for unmatched performance and feminine grace.

1957 DOWN SHIRT  
THAT INTRODUCED  
THE CONCEPT  
OF ULTRALIGHT  
LAYERING SYSTEMS

**IN 1957, EDDIE INTRODUCED** a down jacket that wasn't a jacket at all; it was an undershirt. It rocked the world almost as much as his original down jacket because it introduced the concept of ultralight insulating layers. The Centennial Collection MicroTherm® 1000 is the latest generation of this breakthrough innovation. Extraordinary warmth. Mere ounces of weight. Discontinuous construction for maximum thermal efficiency.

**MEN'S & WOMEN'S  
CENTENNIAL COLLECTION  
MICROTHERM® 1000 JACKET**

- 1000 fill RDS down, certified by Control Union
- Packs into zip chest zip
- 088 0781 (M) | 089 0689 (W)

**WHEN EDDIE INTRODUCED** his first down jacket in 1936, he knew he had something special. America's first patented down jacket, the Skyliner, started a revolution. The Centennial Collection Tech Skyliner Model keeps Eddie's original diamond quilting and then takes off with 21st century innovations. A super-durable water-repellent finish on the ultralight shell. Ultra high-loft 800 fill Premium Down for unmatched, nearly weightless warmth. A classic, reborn.

It's a continuously  
evolving process.  
We're always looking  
for better technology,  
more functional  
traits. And it just  
keeps getting better

THIS WAY," BUT BECAUSE  
WE'RE ALWAYS LOOKING  
FOR A BETTER WAY TO DO IT*

**A CENTURY OF NORTHWEST RAIN** has taught us a lot about staying dry, and the wisdom of never getting complacent with a “we’ve always done it this way” approach to building rainwear. The Centennial Collection Convertible Rain Jacket is our newest example. WeatherEdge® seam-sealed, waterproof/breathable technology guarantees you shelter. A zip hem lets you extend it to a parka length

**EDDIE MADE HIS NAME** building jackets that were working tools. Each piece was all about function and durability. The Centennial Collection Exploration Jacket is built in that tradition. The consummate traveler, with a durable, water-repellent shell, stowable hood, and the plenty of stretch. Each of the 10 pockets has a unique function, with an icon to show its purpose: sunglasses, phone, tablet, wallet, water bottle. Even an RFID-blocking pouch to protect cards from being skimmed.

**MOUNTAINEERS WERE AMONG** the most avid fans of Eddie's down underwear. It was a favorite on many early Himalayan expeditions, including the 1963 American expedition on Mt. Everest. The Centennial Collection Down Camp Suit updates Eddie's 1957 concept with a streamlined, one-piece design that's no longer relegated to being "underwear." It's all about fun and function, with Premium Down insulation
